mame to the conclusion that new commu-ity that has an honest ambition to sub-rive the best interest of the whole people, hich is the highest aim of all good governients, would have crasons to regret the ssembling of such a convention in its didst. Its president reads lengthy mesages, portraying in thining language the ppression of the working class, without aming the party responsible for this opposition, and suggesting methods of rollef hocking to the conscience of the American itizen and most revolutionary to civil so-icty. The most objectionable feature to

brough messages and studied speeches of he leaders. But I have an abiding faith in he intelligence of the masses, and in his lies my hope in the ability of the Democratic principles to bemove these false gods from their new-rected and freshly consecrated pedestals he true motives that prompt the leaders f this mass-meeting to so grossly misrep resent the Democratic party. Everything the leaders of this new movement advocate outside of what they have filehed from the Democratic platforms, is subversive to American institutions. The people wit readily see this, and upon this we prophesy the death of this third party and the burna and daynaming of its blatat leaders. and dammation of its biatant leaders.

riff is one of the main questions between two old parties, and all know that it o manguration by the Republican perthe protected system that is responsible all the evils, politically, to which the mer is heir: yet these leaders are all or this country trying to educate the cule that the tariff is no longer an issue, card Mr. Spencer, a defeated caudidate the Republican ticket for congress from w York make this declaration before studience the other night, and then we till the asking the farmers of this country. re de you expect to drift when you ark your political fortunes on this third

third party?"
"I don't think the Democratic party ought to pander to any of their whims. They won't carry a state in the Union, without it is Kansas, (and sometimes I think Kansas is out of the Union anyhow), and not a county in the state of Texas. And while they are perhaps stronger in this county than any other county in the state, they won't carry a medical in this state, they won't carry a medical in this county than any other county in the state, they won't carry a precinct in this county. The hemocracy is werse scared than hurt. The farmers are not going to fall in with their fallieles and political heresies, headed by a defeated candidate on the Greenback ticket for president, advocating flat money, sub-treasury, service pensions to United States solidiers, socialism, women suffrage, and the like.

DENTON, DENTON COUNTY, TEX., July The criticisms of Mr. Graham and Mr.
Pee upon the Gazerre's article from this
place concerning the reversal of the Stephens case should not, in justice to the true
state of things, be permitted to pass un-

noticed.

Mr. Graham would make the impression that there is no difference of opinion here about Stephens' guilt, and claims that all consider him guilty. Mr. Graham ought to

thow that that is not the case.

The people of Denton and Denton county are law abiding people and are disposed to wait until a man is proved guilty before they unite in denouncing him as a criminal.

Stephens, it is true, was found guilty by the jury, but according to the appellate court the highest courtering. the party, but according to the appellate court, the highest authority in the land the evidence before them was insufficient to warrant them in their finding, and their verdict was set aside. The facts and evi-dence produced upon the trial, the court says, is only sufficient to raise a suspicion of his guilt. Many of the citizens of this are disposed to presume every man inno-cent—according to the laws of the land until his guilt is established by competent evidence beyond a reasonable doubt. Mr. Graham and Mr. Poe will find by in-

Mr. Graham and Mr. Poe will find by investigation and laying uside prejudice that those holding a different view from them are as honest as they are and have as good grounds for their belief. The statement first made in the Gazarriz in reference to the matter was made hastily, and we were possibly incorrect in stating that a majority of the citizens here believed Stephens innocent. The truth is that a majority have not heard all of the evidence, and have not made up their minds fully upon the case. There are, however, responsible citizens here holding radically different views as to his guilt. The great majority of our people if seems are disposed to await the result of a fale and impartial trial of the neurs of a fale and impartial trial of the neurs of a fale and impartial trial of the neurs of
